LATVIAN PLANT DESIGNS NEW HYGROMETER -- Sovetskaya Latvija, No 8, 11 Jan 49

The Latvian "Gidrometpribor" (Hydrometeorological Instrument) Plant produces instruments for the Soviet Hydrometeorological Service, scientific institutions, and for needs of the economy. Plant engineers have recently designed a new hygrometer. First tests of this new instrument have had good results.

Sovetskaya Latvija, No 40, 16 Feb 49

The Riga "Gidrometpribor" (Hydrometeorological Instruments) Plant fulfilled the 1948 gross-production plan 121.3 percent and was awarded the Transferable Red Banner of the All-Union Central Council of Trade Unions and the Main Administration of the Hydrometeorological Service.

F. Mayer is director of the plant. N. Belyuskiy is chairman of the Main Administration of the Hydrometeorological Service.

"GIDROMETPRIBOR" PLANT WINS AWARD -- Zarya Vostoka, No 89, 8 May 49

The Tbilisi "Gidrometpribor" (Hydrometeorological Instrument) Plant attained first place in the 1949 first-quarter competition and was awarded the Transferable Red Banner of the Main Administration of the Hydrometeorological Service.

"KALININ" PLANT WORKS ON MAY QUOTA -- *Tschernyaya Moskva*, No 92, 19 Apr 49

Workers of the "Kalibr" Plant have fulfilled their pledge to complete the 4-month program by the opening of the Tenth Congress of Trade Unions and are working on the May quota as of 19 April. During the first quarter, 2,200,000 rubles were released from turnover funds. The automatic machinery shop (chief, Rylov) was the first to complete the 4-month program.
